Explanations	

A disclosure was made on the Public Disclosure Platform on 15.03.2024 stating that our Company had commenced collaboration with a software company located in Ankara Teknokent for the development of the software for the G-Charge Electric Vehicle Charging Card. The activities carried out within this scope have been completed and have contributed to increasing the domestic content and nationalization ratio of the G-Charge Electric Vehicle Charging Stations. Following the completion of these activities, the transition to the mass production process will commence in the near future. Following the completion of the aforementioned activities, a new agreement has been executed with the software company located in Ankara Teknokent for the development of wireless G-Charge Electric Vehicle Charging Stations and Platforms, together with the related software, within the scope of developing new projects, and work on the project has commenced.

Respectfully announced to the public.

We hereby declare that the above statements are in compliance with the principles set forth in the Capital Markets Board's Communiqué on Material Events currently in force, that they fully reflect the information received by us regarding this matter/these matters, that such information is consistent with our books, records and documents, that we have made all necessary efforts to obtain complete and accurate information regarding the matter, and that we are responsible for these disclosures.
