Explanations	

Our Company has commenced collaboration with a software company located in Ankara Teknokent for the development of the G-Charge Electric Vehicle Charging Card software. Within this scope, an agreement has been executed, and the project prepared has been accepted by the Teknokent as an R&D Project. With the implementation of this project, the software for vehicle charging cards will be developed domestically in Türkiye, thereby increasing the localization of the technology, and the project is expected to make a positive contribution to the Company's operations.

Respectfully announced to the public.

We hereby declare that the above statements are in compliance with the principles set forth in the Capital Markets Board's Communiqué on Material Events currently in force, that they fully reflect the information received by us regarding this matter/these matters, that such information is consistent with our books, records and documents, that we have made all necessary efforts to obtain complete and accurate information regarding the matter, and that we are responsible for these disclosures.
