Explanations	

Within the scope of the Trademark Transfer, Electric Vehicle Charging Station Network Installation, and Operating License Sharing Agreements executed between our Company and E365, an investment decision has been made by our Company and E365 to install and operate G-Charge Electric Vehicle Charging Units throughout Türkiye.

As part of this decision, it has been resolved to install and operate approximately 500 units in total, comprising both AC-Type and DC-Type charging units. It has also been resolved to designate the Black Sea Region as the pilot region for the initial phase of the project.

With the implementation of this investment decision, in addition to our Company's operating revenues, the revenues to be generated from the operation of the Charging Station Network are expected to contribute approximately 75.000.000,00 TRY (Seventy-Five Million Turkish Lira) annually to the Company's turnover.

This is respectfully announced to the public.

We hereby declare that the above statements are in compliance with the principles set forth in the Capital Markets Board's Communiqué on Material Events currently in force, that they fully reflect the information received by us regarding this matter/these matters, that such information is consistent with our books, records and documents, that we have made all necessary efforts to obtain complete and accurate information regarding the matter, and that we are responsible for these disclosures.
