The Impact of the New Business Relationship on Partnership Activities	It is expected that it will have a positive impact on the operations of our company.
<b>Explanations</b>	

Negotiations have commenced, based on mutual expressions of intent, regarding the establishment of a joint venture between our Company and a company established in Europe that continues to manufacture worldwide in certain fields in which our Company operates and is one of the global leaders in the sector (whose name and corporate title cannot be disclosed at this stage at the request of the relevant company). Should the negotiations result in a positive outcome and a decision being made to establish a joint venture, it is expected that our Company's manufacturing activities and production volume will significantly increase, that product sales will commence in new markets, and that this will have a positive impact on our Company's operations. In connection with the progress of the process, a Confidentiality Agreement has been executed in accordance with the requests of both companies. For this reason, information regarding the current stage of the process, the identity of the counterparty company, and the detailed nature of the transaction cannot be disclosed to the public at this stage. Developments in the process will be disclosed to our investors through the Public Disclosure Platform (KAP) in due course, and detailed information will be provided once the Confidentiality Provisions cease to apply.

This is respectfully announced to the public.

We hereby declare that the above statements are in compliance with the principles set forth in the Capital Markets Board's Communiqué on Material Events currently in force, that they fully reflect the information received by us regarding this matter/these matters, that such information is consistent with our books, records and documents, that we have made all necessary efforts to obtain complete and accurate information regarding the matter, and that we are responsible for these disclosures.
