Explanations	

Within the framework of the investments and growth strategy it has recently been pursuing, our Company develops and offers new products to the market in order to increase efficiency in its fields of activity and expand its market share, and also evaluates new investment opportunities in line with these objectives.

The new type AC/DC Electric Vehicle Charging Devices produced by our Company under its G-Charge Brand have successfully completed all tests and have been offered to the market. Negotiations and discussions are currently ongoing with various potential buyers in the domestic and foreign markets regarding the sale of the said new type Electric Vehicle Charging Devices..

In addition to this matter, our Company continues to provide services as an Electric Vehicle Charging Network Operator under the G-Charge Brand with its Electric Vehicle Charging Station Operation licence.

Within this scope, the tender held by Bursa-Nilüfer Municipality for the leasing and operation of Electric Vehicle Charging Network locations has been awarded to our Company. The said tender has been approved by the relevant authority, and the necessary agreement and similar processes within the scope of the tender are ongoing. Following the completion of infrastructure and similar works, the new type DC Electric Vehicle Charging Devices under the G-Charge Brand will be offered for the use of users at the said locations.

In addition, it is planned that the works for the continuation of existing investments and the evaluation of new investment areas will also continue in the upcoming periods.

Respectfully submitted to the public.
