Content of the Disclosure	
Explanations	

A mutual letter of intent has been signed among all three parties in relation to the cooperation to be established with SmartBolts (Industrial Indicators Inc.), a company established in the United States of America, with which we have been conducting negotiations for some time, for the phased production of our Company's products in the USA and the production in Türkiye of the products manufactured by SmartBolts, and also with the participation of MGF-D, a Germany-based finance company, for meeting the financing needs of both investments.

Respectfully announced to the public.

We hereby declare that our above statements are in compliance with the principles set forth in the Capital Markets Board's Communiqué on Material Events currently in force, that they fully reflect the information received by us regarding this matter/these matters, that the information is in accordance with our books, records and documents, that we have made all necessary efforts to obtain the relevant information fully and accurately, and that we are responsible for these statements
